

DAVOS

The glossy white Davos shower tray is equal to the shower tray Sion, but the Davos has legs and a panel. This shower tray has a thick bottom plate, allowing an easy mounting of the legs. The bottom plate is not flat and therefore not suitable for mounting on the flat floor like the Zurich shower tray. Legset and panel are included. The 90 degree panel is made out of one piece and therefore only suitable for a corner setup.

The square Davos shower tray is available in the widths 80, 90 and 100 centimeters in different lengths. The quarter round version is available in 4 sizes 80, 90, 100 and 120 centimeters.
